ABOUT ME

I have already worked in the administrative part of UNIP, where I improved my skills in communication, problem solving, teamwork, flexibility and creativity. I recently transitioned to fullstack development, with back-end expertise. My expertise includes ReactJS, HTML, CSS, JavaScript, Java, Bootstrap and Spring Boot.

WORK EXPERIENCE

Administrative Assistant

DEC 2022- MAY 2023

Experience in customer service, spreadsheet management, document structuring, receiving and sending documents

EDUCATION

University education

Anhembi Morumbi/ São Paulo – 2020/2022
Design game

PROJECTS

RECODE PRO
travel website *LINK*

•Technologies used: HTML, CSS, JS, Bootstrap, Java, MySQL
•Project carried out within the RECODE PRO bootcamp aiming to teach from basic to advanced in the area of fullstack. The site is a travel website that offers tickets and packages with exclusive tours. In it I was able to train and improve all the languages above, Java and MySQL for the backend part of data handling and the rest for the frontend.

RECODE PRO
Eye.code *LINK*

•Technologies used: Java, HTML, CSS, JS, SpringBoot, Bootstrap, jQuery, MySQL
•Site created together as part of the RECODE PRO bootcamp. The site is aimed at people with visual impairments, with color change and font enlargement systems, as well as some other accessibility features. The platform's main idea is to include visually impaired people through our fully online classes. accessible and exclusive training to get used to the demands of the job market.
